INMATE SERVICE RESTRICTIONS

In compliance with state regulations governing the provision of telecommunications services to Inmates of Correctional Facilities and restrictions placed on the provision of such services by Correctional Facility administrators, the Company's Inmate Telecommunications Services are described and limited as follows:

Call duration is limited to fifteen (15) minutes or such other time period as may be specified by the Correctional Facility.

Only automated collect "0+" calls or Inmate Calling Plan calls may be placed.

Inmate access to pay telephone carriers by 800, 950, and 10XXX dialing codes is prohibited to prevent fraudulent use of telecommunications services. Inmate access to directory assistance, emergency assistance, live operators, the Company's customer service number, 700 services, 976 services, and Calls forwarded to another number are prohibited to preserve security, protect the public, and prevent fraud. As necessary to preserve security and to protect the public, Inmate access to certain telephone numbers specified by the Correctional Facility may be prohibited.

Identification of Securus will be made to the End User at the beginning of each collect "0+" telephone call as follows: When the End User answers the phone, the automated operator will say: "This is a collect call from (inmate's name) at the (facility name) using Securus. To accept the call, dial zero." After the call is accepted, the automated operator will say, "Thank you for using Securus."

Termination of the telephone call by the End User may be made at no charge before the call is connected. The Company shall ensure that a positive response from the called party indicating a willingness to pay for the call is received before completing a collect call.

The Securus automated operator will disclose to the End User that the following information is available to the End User, upon request and at no charge: a quote of its rates and charges for the collect call; the method(s) by which such rates or charges for collect calls will be collected; and the method(s) by which complaints concerning such rates, charges or collection practices for collect calls will be resolved.

The Company may block calls from Inmates to End Users where a prepayment required pursuant to an Inmate Calling Plan account has not been received by the Company, where the End User has a delinquent account with the Company, and where the End User has exceeded his/her credit limit during the billing period. The Company may block calls from Inmates to End Users where an Inmate Calling Plan is required.

INSTALLATION AND TERMINATION

Neither the End User nor the Inmate contracts directly with the Company for service. No minimum service period applies to End Users or Inmates. No notice is required by End Users or Inmates to initiate or terminate use of the Company's service. Service is installed upon contractual agreement between the Customer and the Company. The contractual agreement specifies the terms and conditions of installation, termination of service, commission structure, and commission payment schedule. The Customer contract does not alter the obligations of the Company to the End User or Inmate, as described in this Tariff, nor does the contract alter the rates contained in this schedule.

CHARGES AND BILLING ARRANGEMENTS

COMPUTATION OF CHARGES

The total charge for each automated "0+" collect call consists of the duration of the call times the rate per minute which is applied to each minute, with fractional minutes rounded up to the nearest full minute.

The Inmate Calling Plan operates by the Billed Party creating a calling account. This calling account allows for the Billed Party to control the number, duration, and costs of receiving calls from an inmate housed at a Correctional Facility. This calling account has a definite dollar amount at the time of creation. The balance is reduced with each completed call. Upon depletion of the account, the Billed Party can obtain account balance information via the customer service 800 number.

Upon written request from the owner of a prepaid account with a positive balance, and after verification of the identity of the account owner, the Company will refund to the owner any unused balance deposited in a prepaid collect call service account.

BILLING ARRANGEMENTS

Charges for calls billed collect will be included on the End User’s local telephone service provider bill in accordance with billing and collection contracts established between the Company’s billing agent and the applicable local telephone service provider, through direct billing to the End User, or through an Inmate Calling Plan where the End User prepays for the service.

The Company validates the creditworthiness of the End Users through available called number validation procedures. When a requested billing cannot be validated, End Users may be required to provide an acceptable alternative billing method or the Company may refuse to deliver the call. The Company may also refuse to deliver the call where the correctional facility has placed security restrictions on the inmate or on the called telephone number or where the End User has restricted the telephone number called from receiving calls from a correctional facility.

In the event of disputed charges, Billed Parties may contact the Company directly at the posted toll free number or may contact the Company’s billing agent at the toll free number listed on the bill for charges. If the Billed Party is not satisfied with the Company’s resolution of the dispute, the Billed Party can contact the Commission.

The following End User payment options are offered:

- (A) Where the call is billed by the local telephone service provider based on established billing arrangements between the Company and that provider, the End User’s payment options will be those payment types accepted by the local telephone service provider.
- (B) Where the call is direct billed by the Company through its billing agent, the End User’s payment options are available by contacting the Company at 1-800-844-6591 or at www.securustech.net.

SECTION 4 -- RATES AND CHARGES

Prepaid Calling Cards

Where offered by the Confinement Facility, Inmates may purchase a Prepaid Calling Card for calls made by the Inmate User or Authorized User. Prepaid Calling Cards provide an alternative method to make calls and are designed for those Inmates who prefer to prepay for their calls. Calls are made by dialing a special access dialing sequence that connects directly to the Company's network at the Confinement Facility. A valid Authorization Code must be entered to access the account.

The Company's system automatically informs the Inmate User or Authorized User of the Prepaid Balance remaining on the Prepaid Calling Card and provides prompts to place the call by entering the destination telephone number with area code. Prepaid Calling Card service follows the same call validation processes and restrictions as Collect Calls from the Confinement Facility as described in the Inmate Service Restrictions section of this tariff. This includes notification and identification to the called party of the origination of the call from a Confinement Facility. Prepaid Calling Card calls also follow the same call processing restrictions regarding the blocking of calls from Inmates as a result of invalid validation of an Inmate or Inmate User or the intended End User. This includes access to interexchange carriers 800, 950, and 10xxx dialing codes, directory assistance, live operators, and other numbers as specified by the Confinement Facility and/or End User. Network usage is deducted from the Prepaid Balance on a real time basis as the call progresses. Applicable state taxes and fees are included in the rates and charges for the calls made. On Prepaid Calling Card calls, when the Prepaid Balance is one minute prior to depletion, the Inmate User or Authorized User will be interrupted with such an announcement.

Prepaid Calling Card service is available twenty-four (24) hours a day, seven (7) days per week to all terminating locations serviced. Access to such telephone services by an Inmate User may be subject to time-of-day and usage restrictions imposed by individual Confinement Facilities. No minimum service period applies. Prepaid Balances are not charged for incomplete calls.

The Confinement Facilities that offer the option of Prepaid Calling Cards may purchase Prepaid Calling Cards directly from the Company. Inmates then purchase the Cards from authorized personnel at the Confinement Facilities. The Company does not engage in direct monetary transactions with the Inmate. The Inmate may purchase a Prepaid Calling Card in denominations determined by the Confinement Facility. Prepaid Calling Cards are offered only to Inmates at Confinement Facilities and not to the general public. Prepaid Calling Cards are valid for one hundred eighty (180) days from the date of issuance. Unused Prepaid Balances may be used by the Inmate User or Authorized User following release from the Confinement Facility only through the Company's network by dialing a special toll free access number which automatically connects the call to the Company's network. Unused Prepaid Balances are not refundable nor may Prepaid Calling Cards be replenished upon the depletion of the Prepaid Balance. Inmates may purchase additional cards, as permitted by their Confinement Facility. In addition, where authorized by the Confinement Facility, the Company may permit Inmates to combine the unused Prepaid Balances on to a single Prepaid Calling Card.

SECTION 4 -- RATES AND CHARGES

Inmate Debit Accounts

Inmate Debit is a prepaid telephone account offering made available to Inmates by the Company when permitted by the Confinement Facility. Inmate Debit provides an alternative method for Inmates to prepay for and make calls. An Inmate Debit account associated with the Inmate's Personal Identification Number (PIN) is automatically established by the Company. Inmates fund and replenish their Inmate Debit account through electing to transfer funds from either their facility's inmate trust fund or commissary account to their Inmate Debit account. Inmate Debit accounts may also be funded by inmate friends and family members via the Company's points-of-sale. Funds placed in this account become the property of the Inmate.

Inmate Debit calls are processed by dialing a special access dialing sequence that connects directly to the Company's network at the Confinement Facility. Inmates must enter a valid Authorization Code to access their Inmate Debit account. The Company's system automatically informs the Inmate of the Prepaid Balance remaining on the Inmate Debit account prior to each call, provides prompts to place the call by entering the destination telephone number, and informs the Inmate of the rates for the call being attempted. Call charges are deducted from the Prepaid Balance on a real-time basis as the call progresses. Applicable state taxes and fees are in addition to the rates and charges for calling service. During an Inmate Debit call, when the Prepaid Balance is one minute prior to depletion, the Inmate will be interrupted with such an announcement.

Inmate Debit services are available twenty-four (24) hours a day, seven (7) days per week to all terminating locations serviced. Access to such telephone services by an Inmate may be subject to time-of-day and usage restrictions imposed by individual Confinement Facilities. No minimum service period applies. Prepaid Balances are not charged for incomplete calls.

Refunds of unused Inmate Debit account balances are issued by the entity controlling the actual cash deposits, which is either the Company, the commissary, the Confinement Facility or its agent, depending on the specific arrangements, unless otherwise directed by state law. Depending on the entity issuing the refund, refund fees and/or minimum refund amounts may apply. The Prepaid Balance expires ninety (90) days from the date of the last call placed on the Inmate Debit account unless alternative arrangements are expressly requested by the Confinement Facility. No refunds of unused balances will be issued after the expiration date.
